**IT That Works Offers Lunch and Learn Seminars**

If your data is important to your business and you cannot afford to have your operations halted for days – even weeks – due to data loss or corruption, then you need to attend this FREE Lunch & Learn Seminar!

IT That Works (ITTW) is sponsoring a series of “Lunch and Learn” Seminars to educate the business community about the importance and ease of protecting and securing its valuable data and being able to restore that data when you need it most.

ITTW-Midwest President Bob Breitman says, “most businesses understand the importance of data backup, but may not realize that the method they are currently using may be unreliable. 60% of businesses that experience data loss are out of business in 6 months. Our seminars are designed to show business owners the various options available to them so that they can make the best data protection decision for their business.”

The next Lunch and Learn Seminar is scheduled for Wednesday, August 25, 2010 from 11:00-1:00 at ITTW’s offices at 30150 Telegraph Road, Suite 120, Bingham Farms, MI 48025. Reservations are required, as space is limited. . Register on line at [www.ittw.net/freelunch](http://www.ittw.net/freelunch) or by calling 248.593.1477.

Subsequent Lunch and Learn Seminars are planned for Wednesday, September 15, and Tuesday, September 28, also from 11:00-1:00 at the ITTW offices.

A Better Data Backup, ITTW’s managed backup and recovery service protects information and systems you cannot afford to lose. For more information on IT That Works, please visit their website, [www.ittw.net](http://www.ittw.net), or phone 248.593.1477.
