A Better OutlookSM Deploys the Microsoft Exchange 2010 Platform

As technology evolves and improves, IT That Works routinely upgrades its capabilities to include the most advanced technology for its clients. The latest improvement is the upgrade of the **A Better OutlookSM** service to Microsoft Exchange 2010. Clients of **A Better Outlook** now enjoy the improved functions and increased capabilities that Microsoft Exchange 2010 provides.

According to Bob Breitman, President of ITTW-Midwest, "Microsoft Exchange 2010 is an enhancement over Microsoft Exchange 2007, which has been the industry corporate email benchmark for the last few years. By constantly reviewing and assessing digital communications habits and needs, Microsoft was able to add substantial improvements to its Exchange product leading to an improved user experience." **A Better Outlook** is also offering new plans and lower prices for 2011. (See our Web site www.abetteroutlook.com for current pricing.)

Many businesses that are currently using Microsoft Exchange 2007 (or older versions) in a hosted or on-premise solution can benefit greatly by subscribing to ITTW's **A Better Outlook** and the advantages of Microsoft Exchange 2010. More information about A Better Outlook and leveraging this cloud-based solution may be obtained by calling the ITTW offices at 248-593-1477, or on the A Better Outlook Web site, www.abetteroutlook.com.

A Better Outlook leverages the strength of its self-provisioning control panel from Parallels, Anti-VIRUS and Anti-SPAM solutions from Google Postini, archiving from Global Relay to provide its clients with a total best-in-class solution for corporate email for companies with 1 to 1000 mailboxes.

ITTW, a Microsoft Gold Certified Partner, supports clients in the US Midwest and Southern regions through its regional offices in Michigan and Tennessee. ITTW offers the following primary services: "**A Better Outlook**" (Hosted Microsoft Exchange and SharePoint services), "**A Better Tech Support**" (Managed Computer and Network Services), "**A Better Data Backup**" (Managed Backup and Recovery Services), "**A Better Comm**" (Telecommunications and Telephone Solutions), and "**A Better App**" (Hosted Desktops and Applications).
